

UConn IRB #H21-0010

PI: Dr. Wanli Xu

The University of Connecticut Volunteers Wanted for a Paid Research Study

Participants need to track gut health during COVID vaccination!

Participants will help us learn more about the connection between gut health and immunity developed by COVID vaccination.

This study includes 3 in-person visits to UConn School of Nursing biobehavioral research lab at Storrs or Farmington, and requires:

- Completing questionnaires
- Provide blood and stool samples, and nasal swabs.

If you are 18 years old or above and plan to receive the first dose of the COVID-19 vaccine, you are eligible to participate.

You may not be eligible if you:

- Have already received the COVID-19 vaccine.
- Have certain medical conditions such as major neurological condition.
- Is currently receiving steroids therapy.

Participants will receive up to \$100 for completing the study.

For more information, check our [study website](#) or contact the Dr. Wanli Xu's research team.
